PETER PAUL A. LAZAN

jonathan.mauring17@gmail.com / 09515379127 • https://github.com/FearCleevan • Matina Aplaya, Davao City

Objective

Aspiring Full-Stack Web Developer and IT Support Specialist with hands-on experience in web application development, database management, and network administration. Skilled in building secure, responsive, and data-driven systems using React, Node.js, and MySQL. Demonstrates strong problem-solving, adaptability, and collaboration skills developed through practical experience in both software development and IT operations. Eager to contribute to a dynamic organization by delivering innovative solutions, ensuring system security, and supporting continuous technological improvement.

Experience

The Launchpad Inc.   Villa Abrille St., Davao City
IT Developer & Systems Support Trainee (OJT)   02/2025 - 04/2025

Full-Stack Development
- Built an internal chat system using React JS, Node JS with NoSql firebase database.
- Built a Company Landing Page using React JS with Apps Script.

IT Security & Support
- Monitored systems for unusual activity, applying basic intrusion detection principles.
- Resolved network vulnerabilities (misconfigured firewalls, unauthorized access points).
- Resolved critical network issues (LAN/Wi-Fi configuration, printer/CCTV troubleshooting)

The Launchpad Inc.   Villa Abrille St., Davao City
Web Developer & Support (Absorbed)   04/2025 - Present

Full-Stack Development
- Built an internal chat system using React JS, Node JS with firebase database.
- Built a Company Landing Page using React JS with Apps Script.
- Built a Clients Landing Page using React Js and Google App Script with SEO deployed in godaddy.com.

Responsibilities
- Maintain and troubleshoot the company website hosted on Hostinger.
- Provide technical support for staff and resolve IT-related issues.
- Perform regular system updates, backups, and security checks.
- Assist in the setup and configuration of workstations, software, and network devices.
- Ensure smooth operation of internal systems and tools used in daily operations.

A-Movement   Maa, Davao City
Transport Coordinator   01/2023 - 03/2024

- Coordinated logistics and transportation schedules for efficient delivery.
- Used IT systems to track shipments and manage customer inquiries.
- Developed efficient workflows to improve service delivery.

PROJECTS AND COMMISSIONS

School Projects
Projects and Commissions

E-commerce Store: (React, Node.js, Stripe, Docker, PostgreSQL)
- Developed a transactional platform with Stripe payment integration, ensuring PCI-DSS compliance for secure card processing.
- Implemented JWT authentication and role-based access control (Admin/Customer) to prevent unauthorized transactions.
- Containerized backend services using Docker to isolate vulnerabilities and minimize attack surfaces.

Student Management System: (PHP, MySQL, JavaScript)
- Designed a CRUD application with SQL injection prevention (parameterized queries) and XSS mitigation (input sanitization).
- Created ERD diagrams for secure database architecture, optimizing sensitive data storage (e.g., student records).

Completed additional small programming projects, creating responsive websites and functional applications tailored to client requirements.
Designed and implemented databases for effective data storage and retrieval using MySQL and ERD.

Strengths

Problem-Solving Skills	Adaptability	Team Collaboration
Resolved IT vulnerabilities (e.g., misconfigured firewalls during OJT) and applied secure coding practices (input validation, encryption)	Rapidly learned tools like Wireshark for network analysis and Metasploit for penetration testing simulations.	Demonstrates strong teamwork and leadership abilities, ensuring productive collaboration in group projects and work settings.

Education

Samson Polytechnic College of Davao   Davao City
Bachelor of Science in Information Technology   2021 - 2025

Technical Skills

Programming:	IT Support:	Tools & Platforms:
HTML, CSS, JavaScript, Node.js, Express.js, React.js, Python, SQL, MySQL, ERD design, Firebase Auth, Role-Based Access Control (RBAC)	Troubleshooting Laptops, PCs, LAN/Wi-Fi Config, Firewall Basics, System Hardening, Endpoint Security, Log Monitoring, Hostinger	Visual Studio, Microsoft Office (Word, Excel, PowerPoint), Google Workspace (Docs, Sheets, Slides), Trello, ClickUp, Slack, Version Control: GitHub

Certifications and Awards

Dean's List — 3rd Year   Outstanding Performance in Industry Immersion   Outstanding Performance in Capstone
