PETER PAUL ABILLAR LAZAN

Web Developer | IT Support Specialist | IT Systems & Credential Administrator
jonathan.mauring17@gmail.com | 09515379127 | Matina Aplaya, Davao City

SUMMARY

Full-Stack Web Developer, Mobile App DevOps, and IT Systems & Credential Administrator with hands-on experience in web and mobile application development, database management, network administration, and system access management. Skilled in building secure, responsive, and data-driven systems using React, Node.js, TypeScript, and MySQL. Experienced in iOS/Android app deployment, CI/CD pipelines, Supabase backend management, and project coordination using Plane.so. Demonstrates strong problem-solving, adaptability, and collaboration skills with a security-first mindset. Eager to contribute to a dynamic organization by delivering innovative solutions and ensuring system security and operational excellence.

EXPERIENCE

IT Systems & Credential Administrator

Poseidon Distribution OPC | Dec 2025 – Present | Davao City

- **Mobile App DevOps (iOS & Android):** Managed full iOS and Android app deployment lifecycle on Apple App Store Connect and Google Play Console, including provisioning profiles, certificates, TestFlight distribution, and production releases for React Native / Expo applications.
- **Web Development & Deployment:** Built and maintained mobile app landing pages using React.js and TypeScript; managed deployments via Vercel including custom domain setup, environment variables, and production/preview branch management.
- **Version Control & CI/CD:** Administered GitHub repositories, handled pull request reviews and merging, enforced branching strategies, and managed CI/CD deployment pipelines through Vercel's Git integration.
- **Backend & Cloud Infrastructure:** Configured and maintained Supabase projects including database schema management, authentication setup, row-level security (RLS) policies, and API key/service credential management.
- **Credential & Security Management:** Maintained centralized secure storage and rotation of credentials across Google APIs, Supabase, PayMongo, Apple Developer, and Google Play Developer accounts; enforced 2FA/MFA policies across all team accounts.
- **Project Management & Ticketing:** Led sprint planning and task management on Plane.so — created and structured frontend and backend tickets based on Figma UI/UX designs, monitored developer progress, tracked blockers, and ensured timely delivery.
- **SaaS & Subscription Management:** Managed licenses, renewals, and billing for Apple Developer Program, Google Play Console, cloud platforms, and third-party SaaS tools used across the organization.
- **Cross-Team Coordination:** Served as bridge between design (Figma), development, and operations teams — translating UI/UX requirements into actionable technical tickets and maintaining documentation for system access and deployment procedures.

Web Developer / IT Support Specialist

The Launchpad Inc | Feb 2025 – Dec 2025 | Davao City

- **Full-Stack Web Development:** Built and deployed full-stack web applications using React.js, Node.js/Express, and MySQL/Firebase, including an Internal CRM, Real-Time Chat System with RBAC, and client landing pages for automated lead capture.
- **Automated Data Pipelines:** Created ETL workflows with Google Apps Script to automate data extraction, validation, and loading into Google Sheets; integrated lead capture and notification systems to reduce manual work.
- **Hosting, DNS & Deployment:** Managed hosting on Hostinger and GoDaddy including deployments, domain setup, DNS records (MX, SPF, DKIM, DMARC), email routing, and SSL certificate installation.
- **Server Admin & Security:** Performed server management via SSH including file navigation, environment setup, cache clearing, and background jobs; enforced monthly credential rotations for passwords, API keys, and SSH keys.

- **Technical Support & Network Setup:** Provided IT support for hardware, software, network issues, MFA, and email; assisted with workstation provisioning and configuring routers, switches, and Wi-Fi devices.
- **System Maintenance & Monitoring:** Conducted regular system updates, backups, and security audits to maintain stability, protect against vulnerabilities, and ensure smooth daily operations.

Customer Service Representative

Fast Cargo Logistics | March 2024 – July 2024 | Davao City

- Managed high-volume inbound calls for delivery inquiries and shipment tracking; monitored container arrivals and sea freight schedules while maintaining communication with ports and consignees.
- Coordinated between customers and internal teams to resolve delivery issues, escalating complex cases to ensure high customer satisfaction and operational efficiency.

Transport Coordinator

A-Movement | Jan 2023 – Feb 2024 | Davao City

- Monitored air and sea freight cargo arrivals, overseeing delivery processes and inventory management to ensure accurate handling and timely distribution.
- Prepared detailed Inspection Reports (IR) for item arrival discrepancies, maintaining precise records and facilitating resolution with vendors and logistics partners.

PROJECTS

My AI Assistant (Local LLM, RAG System)

Tech Stack: Python, Ollama, ChromaDB, sentence-transformers, FastAPI, PyQt6, Textual, BeautifulSoup, pypdf, TypeScript (VS Code Extension)

URL: https://github.com/FearCleevan/My-AI-Assistant

PayUp - Late Payment Escalator (Mobile App)

Tech Stack: React Native, Expo Router, TypeScript, NativeWind, Supabase

URL: https://github.com/FearCleevan/Payup

Vyralyx — AI-Powered Fitness (Mobile App)

Tech Stack: React Native, Expo Router, TypeScript, NativeWind, Supabase

URL: https://github.com/FearCleevan/vyralyx-fitness-app

Gooey-Toast (React Native UI Library)

Tech Stack: React Native, Expo, TypeScript, Reanimated, React Native SVG, React Native Gesture Handler, Turborepo, pnpm, CLI Tooling

URL: https://github.com/FearCleevan/rentapp

Rent App (Mobile App)

Tech Stack: React Native, TypeScript, Supabase, JavaScript

URL: https://github.com/FearCleevan/rentapp

Internal Project Manament (Web-based)

Tech Stack: Next.Js JavaScript, TypeScript, Tailwind CSS

URL: https://projectmanagement-smoky.vercel.app/login

The Launchpad Inc | Company Website Landing Page (Web-based)

Tech Stack: React.js, Google Apps Script, Google Sheets **URL:** https://www.thelaunchpadteam.com

Chat System | Company Internal Chat System (Web-based)

Tech Stack: React.js, Firebase (Firestore, Authentication), Cloudinary

URL: https://lpchat.thelaunchpadteam.com

LP CRM | Company Customer Relationship Management (Web-based)

Tech Stack: React.js, Node.js, Express.js, MySQL

URL: https://crm.thelaunchpad.team

TechnoBuild V2 | Ecommerce with PC Builder and AI Assistant (Web-based)

Tech Stack: React.js, Firebase, Gemini API, Cloudinary

URL: https://technobuild.vercel.app

School Management System | SMS with React JS and NoSQL Firebase
Tech Stack: React.js, Firebase (Firestore, Authentication), Cloudinary
URL: https://samson-sms.vercel.app

ScapeDBM | Landscaping Services Landing Page
Tech Stack: React.js, CSS3, Cloudinary
URL: https://scape.vercel.app

Personal Portfolio
Tech Stack: React.js, Firebase (Firestore, Authentication)
URL: https://lazandev.vercel.app

SKILLS

Technical Skill

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL, SCSS, CSS Modules **Frontend:** React.js, React Native, Expo, Responsive Web Design, State Management **Backend:** Node.js, Express.js, REST APIs, API Integration, Authentication **Databases:** MySQL, Firebase (Firestore, Authentication), Supabase

Cloud & Deployment: Firebase, Vercel, Hostinger, GoDaddy, Supabase, Expo EAS, Apple App Store Connect, Google Play Console

Tools & Platforms: Git, GitHub, Google Apps Script, Cloudinary, SSH, Postman, Chrome DevTools, Plane.so, PayMongo, Stripe, Figma, Expo, Outlook, Gmail

Professional Skills

Full-Stack Web Development, Mobile App Deployment (iOS/Android), App Store & Play Store Release Management, DevOps Pipeline Management, IT Support & Troubleshooting, Network Administration & Setup, Server Management & Security, Database Management & Design, DNS & Domain Management (MX, SPF, DKIM, DMARC), ETL & Data Pipeline Automation, Credential & Access Management (RBAC, 2FA/MFA), SaaS Subscription & License Management, Project Management & Sprint Planning, System Maintenance & Security Audits, Technical Documentation

Soft Skills

Effective Communicator & Team Collaborator, Strong Problem-Solving & Analytical Skills, Detail-Oriented & Self- Motivated, Adaptable & Quick Learner, Time Management & Multitasking, Highly Trustworthy & Security- Conscious

CERTIFICATIONS & ACHIEVEMENTS

Dean's List
Samson Polytechnic College of Davao
Awarded for consistent academic excellence

Outstanding Performance in Industry Immersion
Samson Polytechnic College of Davao
Recognized for exceptional work in professional internship

Outstanding Performance in Capstone Project
Samson Polytechnic College of Davao
Awarded for excellence in project design and implementation

EDUCATION

Bachelor of Science in Information Technology
Samson Polytechnic College of Davao | 2021 – 2025 | Davao City
